## The White Mountain Hearth Log Collection

Empire manufactures log sets and burners to suit any application. With sizes ranging from 16 inches to 30 inches, and log pieces ranging from slender to massive, the White Mountain Hearth collection is sure to have the perfect set to fill your fireplace.

We offer both ceramic fiber and traditional refractory concrete logs. Each log set is hand-painted to bring out the rich detail.

All of our burners are available in Natural Gas and LP models.

All of our Vented/Vent-Free Burners – Harmony, Slope Glaze, and Contour – are approved for use in any certified vent-free firebox. They may be installed in an existing wood-burning fireplace, with the damper closed, to operate as a vent-free heating system. Millivolt and manual burners are also certified for installation as vented log sets, so long as the installer blocks the fireplace damper partially open. A special flue-damper clamp is included with the burner. A vented burner is not a heating system and may not be operated by a thermostat.

## Harmony Burners and Matching Log Sets

- **Standard and Expanded Bed burners**
- **24-inch (38,000 Btu) and 30-inch (40,000 Btu) models in Vented/Vent-Free**
- **Millivolt models include an on/off switch but will operate with Empire remote controls and thermostats (VFNR)**
- **Intermittent Pilot models include a variable flame height thermostat remote control (30 percent turndown) (VFXI & VFNI)**
- **Choose Wildwood Refractory, Super Wildwood Refractory, or Canyon Ceramic Fiber Log Set**
- **Standing Pilot models include a variable flame height remote control (VFXV)**
- **Made in U.S.A.**

Our Harmony Burner serves as the basis for our premium line of meaty, massive log sets – the Wildwood and Canyon. The Harmony Burner line includes a special extended burner bed model. Special baffles within the burner induce movement in the flow of gas to accentuate the naturally flickering flames.

*Canyon Ceramic Fiber Log Set on Harmony Burner  
Shown with Optional Decorative Grate*

*Wildwood Refractory Log Set on Harmony Burner with Extended Ember Bed*

*Super Wildwood Refractory Log Set on Harmony Burner  
Shown with Optional Decorative Grate*

### Slope Glaze Burners and Matching Log Sets

- 16, 18, 24 and 30-inch Vented/Vent-Free Burners – up to 38,000 Btu
- Millivolt, Manual, Direct Ignition, and Intermittent Pilot models
- Choose from four Refractory and three Ceramic Fiber Log Sets

*Ponderosa Refractory Log Set*

*Charred Oak Ceramic Fiber Log Set*

*Stacked Aged Oak Refractory Log Set*

*Super Charred Oak Ceramic Fiber Log Set*

*Sassafras Refractory Log Set*

*Birch Ceramic Fiber Log Set*

*Super Sassafras Refractory Log Set*

## Contour Log Set/Burner Systems

- **18, 24 and 30-inch Vented/Vent-Free Burners – up to 40,000 Btu**
- **Millivolt (VFDR), Manual (VFDM), and Thermostat (VFDT) models**
- **Special 10,000 Btu Millivolt model for bedroom applications (where allowed by code)**
- **Choose Whiskey River Refractory or Flint Hill Ceramic Fiber model**

These systems combine the burner and log set into one package. With a precision-ported tube style burner, they provide great looks at an exceptional value. Because they require a minimum firebox depth of just 12 inches, these compact systems fit easily into most fireplaces.

*Flint Hill Ceramic Fiber Log Set & Burner Combo*

*Whiskey River Refractory Log Set & Burner Combo*

## Multi-Sided Slope Glaze Burners and Matching Log Sets

- **18, 24 and 30-inch Vented/Vent-Free Vista Burners – up to 40,000 Btu**
- **Millivolt models include an on/off switch but will operate with Empire remote controls**
- **Choose from Rock Creek Refractory or Stone River Ceramic Fiber Log Sets**

*Rock Creek Refractory Multi-Sided Log Set*

*Stone River Ceramic Fiber Multi-Sided Log Set*

Designed to fit see-through and peninsula fireboxes, our Slope Glaze Vista Burners provide a great view from any angle. Ceramic beads inside the burner tumble the gas to create exceptionally realistic flame movement.

## Breckenridge Multi-Sided Fireboxes

Available in peninsula and see-through styles. The peninsula system is viewable from three sides – ideal for building into buttress walls or installing in a peninsula mantel.

See-through systems tie two adjoining rooms together. Multi-sided Fireboxes accept any properly sized, multi-sided certified Vent-Free Burner or Burner and Log Set from 18- to 30-inch.

Options include many of the same decorative louver and door accessories as our conventional fireboxes, for continuity in homes with multiple fireplaces.

*Premium Vent-Free Peninsula Firebox VFP36PB2EF*

## Loft Contemporary Burners

*24-inch Loft Series burner with Brushed Stainless Steel Decorative Top shown in an existing masonry fireplace*

### Unconventional Styling, Contemporary Flair, Astonishing Good Looks

Because it does not require a chimney or metal vent stack, where you install your vent-free Loft Series burner or fireplace is limited only by your imagination – in a wall, in an island, in a mantel, in an art installation – the possibilities are boundless.

Loft Series burners install in any certified vent-free firebox or masonry fireplace to help complete your artistic statement. They operate as a vent-free system for supplemental heating. Millivolt systems can be installed in a vented fireplace to provide the ambiance of a fire but without the heat. IP systems include a thermostat remote and must be installed as a Vent-Free system only.

Available in LP and Natural Gas models in 18-inch (26,000 Btu), 24-inch (36,000 Btu), and 30-inch (40,000 Btu), there's a Loft Series Burner sized perfectly for your fireplace. There is even a special 18-inch (10,000 Btu) Millivolt Loft burner for bedroom applications – where allowed by code.

24-inch Multi-sided Loft Series burners can be installed in any certified vent-free or masonry see-through or peninsula firebox.

All Loft Series burners are available in remote-ready Millivolt system with a manual Piezo Ignition or Battery Operated Remote Control Intermittent Pilot that allows you to have a standing pilot or operate with an intermittent pilot to save gas.

*24-inch Loft Series Multi-Sided burner with Clear Frost Decorative Glass shown in a Breckenridge 36-inch See-Through Firebox*

### Decorative Options

*Available for all Loft Series Burners and Loft Series Multi-Sided Burners*

*Loft Series Vent-Free Fireplace with Decorative Glass Front*

### The Loft Series Fireplace

The unique Loft Series Fireplace includes a Loft burner in a compact and complete system. This versatile unit installs as a zero-clearance vent-free fireplace or as an insert in an existing fireplace.

Available in 28,000 Btu, 20,000 Btu, and 10,000 Btu the 99-percent efficient Loft Fireplace will quickly warm your living space – and grab your attention.

Choose the Millivolt system and select one of seven control options – from a simple wall switch to a thermostat remote to the ultimate programmable remote. Or choose the Intermittent Pilot system, which includes a variable flame-height remote control with integral thermostat.

Finish your fireplace installation with one of Empire's two distinctive decorative fronts. The ultra-clean frameless tempered glass front features rounded and polished edges and a silkscreened black border. With its minimally visible hardware, the glass pane "floats" in front of the fireplace.

For a more traditional look, choose the simple, elegant black metal frame with glass panel. This four-sided frame, with its 1 3/4-inch depth, provides the perfect transition to drywall, tile, or other material.

Installed as an insert, your Loft system will require the three-sided decorative surround. Like the four-sided frame, this surround measures 1 3/4-inch deep and makes a clean transition from an existing fireplace.

*Loft Series Vent-Free Fireplace with Clear Frost Decorative Glass and Decorative Glass Front*

*Loft Series Vent-Free Fireplace with Blue Clear Decorative Glass and Metal Frame with Glass Panel*

*Loft Series Vent-Free Fireplace with Glass Panel Frame and 6 x 6-inch Metal Insert Surround*

## Breckenridge Vent-Free Fireboxes

### The Breckenridge Collection

- **Choose Deluxe, Premium, or Select**
- **New Stainless Steel Deluxe Models**
- **Variety of Decorative Accessories**
- **Louver and Flush Face Models**
- **Accepts Any Properly Sized Certified Vent-Free Burner and Log Set**
- **Zero-Clearance Certified**
- **Made in U.S.A.**

Available in louvered and flush front, the Breckenridge Deluxe and the deeper Premium models present an updated look of a traditional recirculating firebox.

Our unique Breckenridge Select vent-free gas firebox features a tall, deep stage for the log set, yet has compact outer dimensions and low profile top and bottom. The visual effect is a lot more fireplace with less of the firebox face showing. Add the optional lighting kit for accent lighting even when the fireplace is off.

The unique Breckenridge Select has no visible louvers, yet still provides the benefit of a recirculating firebox with an optional blower.

The Select Firebox's low floor height allows installation at or near floor level, for a natural, integrated look, that creates the illusion of a site-built fireplace – but at a fraction of the cost.

All our fireboxes feature hem-bent seams that provide a better seal while eliminating dozens of screws and fasteners. The result is a lighter, more rigid box that is easier to install.

Please see pages 3-6 for our available log sets and burners, page 14 for available mantels, and pages 15-17 for options and accessories.

*Breckenridge 36 Vent-Free Premium Firebox with Mission Louvers and Outer Trim in Hammered Pewter with a Standard Mantel and Base in Oak*

*Breckenridge 32 Vent-Free Deluxe Stainless Steel Firebox with Refractory Liner*

*Breckenridge 32 Vent-Free Deluxe Louvered Firebox*

*Breckenridge 36 Vent-Free Premium Flush Firebox*

*Breckenridge 42 Vent-Free Select Firebox with Optional Herringbone Liner*

*20,000 Btu Innsbrook Vent-Free Fireplace Insert with Contemporary 6 x 6-inch Metal Surround*

## Innsbrook Traditional Vent-Free Inserts

A wood-burning fireplace sends more than half of its heat up the flue, creating negative pressure in your home, which draws in outside air through gaps in doors and windows that actually makes your home colder.

At 20,000 and 28,000 Btu, Vent-Free Innsbrook models are 99.9% efficient, for fast room warming on cold days. The Vent-Free Insert features an integrated Oxygen Depletion Sensor (ODS) to instantly shut off the burner if oxygen levels drop to unsafe levels. The Innsbrook Vent-Free Insert is available in both Millivolt and Hydraulic Valve models.

We offer two contemporary styles and one traditional style insert surround. The contemporary metal surrounds are available in 6 x 6-inch or 6 x 3-inch and fit in perfectly with any modern décor. The traditional surround is made from cast iron and features intricately inlaid designs for a beautiful, old-world feel.

The Innsbrook comes standard with blower and Banded Brick liner.

See page 17 for louver styles. No doors available.

*20,000 Btu Innsbrook Vent-Free Fireplace Insert with Contemporary 6 x 6-inch Metal Surround*

*20,000 Btu Innsbrook Vent-Free Fireplace Insert with Contemporary 6 x 3-inch Metal Surround*

*20,000 Btu Innsbrook Vent-Free Fireplace Insert with Traditional 6-inch Cast Iron Surround*

*28,000 Btu Innsbrook Vent-Free Fireplace Insert with Decorative Glass Front*

*28,000 Btu Innsbrook Vent-Free Fireplace Insert with Contemporary 4-Sided Metal Frame*

### Full-featured Fireplaces for Smaller Spaces

The Vail 24 delivers the beauty of hand-painted ceramic fiber logs and Slope Glaze Burner to bring natural flickering flames to dens, hallways, and even bedrooms.

Vail 24 Fireplaces arrive rated for 20,000 Btu or 10,000 Btu allowing installation in bedrooms. (Check local codes.)

The Vail 24 includes matte black louvers and frame. Available accessories include metal frames and bottom trim (in polished brass, hammered pewter, and stainless steel), blowers, ceramic brick liners, remote controls, and Traditional Cabinet and Corner Mantels (in cherry, dark oak, oak, nutmeg, unfinished hardwood, unfinished oak, and white).

### Vail 26 Special Edition

The Vail 26 Special Edition is the American-made fireplace system that ships complete in one package – fireplace, assembled mantel, ceramic fiber log set with 20,000 Btu vent-free Contour burner, matte black hood, frame and louvers – even glowing embers.

This package system installs in as little as 30 minutes, minimizing labor costs. A total mantel footprint of just over 17 by 45 inches makes the Vail 26 Special Edition ideal for tight spaces and small rooms.

The Vail 26 Special Edition is available in three mantel colors – nutmeg, cherry, and white – and in modulating hydraulic thermostat and millivolt control. The millivolt system allows you to add a wall thermostat, remote control, or thermostat remote control.

### Vail 26

We also offer the Vail 26 as a separate fireplace – perfect for built-in and custom mantel applications. Or choose one of our cabinet or corner cabinet mantels, available in five finishes – cherry, dark oak, nutmeg, oak, and white – plus unfinished hardwood or oak.

The 10,000 Btu version may be installed in bedrooms, where allowed by code.

*Vail 24 Fireplace with Hammered Pewter Louvers and Trim  
in a Cherry Standard Mantel*

*Vail 26 Fireplace Special Edition Nutmeg*

*Vail 32 Fireplace with Matte Black Trim in a Dark Oak Standard Cabinet Mantel*

*Vail 36 Fireplace with Stainless Steel Leaf Louvers, Doors, and Trim in a White Standard Corner Mantel*

## Vail Series

- **Zero-Clearance Certified**
- **Integrated Oxygen Depletion Sensor**
- **Thermostat, Remote Control, and IP Models**
- **Variety of Decorative Accessories**
- **Made in the U.S.A.**

The Vail 32 and 36 Premium Vent-Free Fireplaces feature the choice of a hand-painted ceramic fiber or rugged refractory Sassafras log set to complement the flames from our Slope Glaze Burner.

At 99.9 percent efficient, the Vent-Free Slope Glaze Burner delivers more heat for your energy dollars – 32,000 Btu for the Vail 32 and 36,000 Btu for the Vail 36. Ceramic glazed pellets in the burner tumble and swirl the gas to produce a natural flickering flame.

The matte black arched screen front perfectly frames the interior firebox to create an exceptionally beautiful fireplace. Complete your Vail Fireplace with an optional stacked stone or brick style liner.

Hem-bent seams provide a better seal while eliminating dozens of screws and fasteners. The result is a lighter, more rigid box that is easier to install.

## Vail Multi-Sided Fireplaces

The Vail 36-inch peninsula and see-through Vent-Free fireplace systems (38,000 Btu) include a 24-inch Slope Glaze Vista Burner installed (and slightly recessed into the floor of the fireplace) and ready for the matching Rock Creek log set (order separately).

The unique Slope Glaze Vista Burner features ceramic pellets inside a large burner pan to create a deep field of dancing flames.

The see-through system is viewable from two sides for built-in-wall applications. The peninsula system is viewable from three sides making it ideal for building into buttress walls or installing in a peninsula mantel.

See pages 15-17 for options and accessories.

*Premium Peninsula Fireplace VFP36PP32E*

## Boulevard Vent-Free Linear Fireplaces

### Boulevard Vent-Free Linear Fireplaces

With its strong horizontal lines, contemporary burner, and chic accessories, a Boulevard Linear Vent-Free Fireplace adds drama to any décor. Designed for eye-level, in-wall installation, Boulevard Fireplaces feature modern technology, artfully applied.

The Millivolt system operates with a standing pilot and includes an on/off remote control. Additional remote controls are available – including thermostat and programmable models.

The Green Earth Preferred Intermittent Pilot system eliminates the standing pilot – saving energy – and comes standard with a thermostat remote that allows you to adjust the flame height to suit your mood and heat requirements.

Press the button to light the fire – or just let the thermostat maintain your desired room temperature. Thanks to advanced logic circuitry, the IP system's thermostat anticipates heat demand to minimize temperature fluctuations in the room.

Available in 38" (35,000 Btu or 25,000 Btu), 48" (40,000 Btu), 48" See-Through (40,000 Btu), and 48" Curved Burner See-Through (40,000 Btu).

Please see page 17 for decorative media options.

### Accessories

*Porcelain White Liner with Blue Bay Log Set – 4 piece driftwood  
(Blue Bay Log Sets available for VFLL38FP and VFL48FP only)*

*Porcelain Black Liner shown with 4-inch Surround in Matte Black  
(4-inch Surround available for VFLL38, VFLL48, and VFLZ48 models)*

**Note:** Liners not available for VFLL48SP and VFLZ48SP models.

*Boulevard 38-inch Vent-Free Linear Fireplace with Porcelain White Liner, Tidewater Front in Matte Black, and Blue Bay Log Set*

*Boulevard 48-inch Vent-Free See-Through Linear Fireplace  
with Curved Burner*

*Lighting Kit enhances liner and decorative glass*

*Empire Medium Vent-Free Cast Iron Stove in Porcelain Mahogany on Floor Pad (Not Required)*

*Empire Small Vent-Free Cast Iron Stove in Matte Black*

## Empire Vent-Free Cast Iron Stoves

Vent-free Empire Stoves come standard with Empire's Contour burner system. The Contour Burner features precision-port technology to produce vibrant flames. Topped off with the hand-painted ceramic fiber log set and glowing embers, the effect is as realistic as a gas-fired stove gets – guaranteed to keep you and your guests mesmerized for hours.

Vent-free technology eliminates the need for venting, which greatly simplifies installation.

Empire Stoves are available in two types of ignition – Millivolt (MV) and Intermittent Pilot (IP). The Millivolt system lights a standing pilot with a pushbutton piezo ignitor. Once the standing pilot is lit, the MV system operates with an on/off switch or optional remote control system. The standing pilot allows your Empire stove to provide heat during power outages.

IP systems eliminate the standing pilot for even greater energy savings. Pressing the on/off switch ignites the pilot, which then ignites the main burner. IP systems can also operate with an optional remote control system. Battery backup allows your Empire stove to provide heat during power outages.

All Empire Cast Iron Stoves ship assembled in one carton, for easier set-up.

Empire Cast Iron Stoves are available in two sizes – small (10,000 Btu & 20,000 Btu) and medium (25,000 Btu).

Floor pads are available but not required. You can place your Empire Stove directly on carpet or tile.

*Optional Side Shelves*

Small Stove Finishes					
	Porcelain Black	Mahogany	Matte Black		
Medium Stove Finishes					
	Porcelain Black	Mahogany	Matte Black	Sand	Matte Pewter
Stone Options*					
	Adobe Frost Granite	Patina Mocha Tile	American Beauty Marble	Temple Gray Marble	Venetian Gold Granite

*\*Stone inlays available for Empire Medium Cast Iron Stoves only.*

## Standard Mantels

Empire's craftsmen (and women) build each Standard mantel from 3/4-inch fine-furniture grade cabinetry components, including MDF wrapped in select hardwood veneers. Because this natural wood can vary in appearance, we grain-match the components to ensure you get a great looking mantel.

Each mantel is detailed in matching solid wood trim – in oak or poplar. The full 3/4-inch cove moldings and edge trim add structural integrity. Matching decorative trim pieces – in complementary sizes – add beauty and character.

## Contemporary Mantels

Designed to complement our contemporary burners, Contemporary Mantels are offered in full cabinet or corner cabinet style – with strong horizontal lines. Each mantel is hand made from stable MDF plywood and finished in rich matte black or clean white finish.

Contemporary Mantels fit Empire's Deluxe Fireboxes without modification.

## Profile Mantels and Mantelshelves

Available in flush only, our competitively priced Profile Mantels and Mantelshelves feature 1/2-inch cabinet-grade plywood construction with real hardwood moldings. Specify primed (for painting) or unfinished (for staining, painting, or faux finishing).

*Standard Corner Mantel in Cherry*

*Contemporary Cabinet Mantel in Black*

*Standard Corner Mantel*

*Profile Mantel*

*Profile Mantelshelf*

- Available in Cabinet mantels and Corner Cabinet mantels in 32-inch, 36-inch, and 42-inch
- More compact than Universal mantels
- Built-in base
- Fits White Mountain Hearth fireplaces without modification

- Flush mantels in 48-inch and 52-inch
- Requires non-combustible surround
- Ideal for new construction and remodeling
- Primed or unfinished hardwood
- Reversible pilasters for fluted or smooth style on some models

- Available in 48-inch, 60-inch, and 72-inch
- Ideal for new construction and remodeling
- Primed or unfinished hardwood

## Remote Controls and Thermostats

Take charge of your new fireplace with a battery-operated remote control, thermostat remote, electric remote control, wall thermostat, or wall switch.

**Remote Control availability and appearance vary by fireplace. Some systems include remote.**

**These controls are sold as accessories for the burners and fireplaces indicated.**

Power sources shown are for the controller and for the receiving unit mounted in the fireplace – i.e. "Battery/Battery" means both require batteries to operate.

Millivolt systems will provide heat during a power failure. Battery backup is offered on some other systems. It allows the burner to operate without electric power, to provide heat, but will not operate the blower or lighting.

### FREC

- Electric Remote Control
- On/Off Remote
- Battery Remote/110V Receiver
- For Millivolt, IP Fireplace, DI Fireplace, and Mantis

### FRBC

- Battery Remote Control
- On/Off Remote
- Battery/Battery
- For Millivolt
- Included with Boulevard Millivolt units

### FRBTC

- Battery Remote Control, Thermostat
- Thermostat Remote
- Battery/Battery
- For Millivolt

### FRBTP

- Battery Remote Control, Programmable
- Programmable Thermostat Remote
- Battery/Battery
- For Millivolt

### FWS

- Wall Switch
- On/Off Wall Switch, Wire
- N/A
- For Millivolt, Direct Ignition

### TMV

- Wall Thermostat
- Wall Thermostat, Wire
- N/A
- For Millivolt

### TRW

- Battery Wall Thermostat, Digital
- Wall Thermostat, Wireless
- Battery/Battery
- For Millivolt

### TDV

- Battery Wall Thermostat, Digital
- Wall Thermostat, Wireless
- Battery
- For Millivolt

*These Remotes are Included with the Burners or Fireplaces Indicated – Not Sold as Accessories*

### Variable Flame Height, Battery Remote Control, Thermostat

- Thermostat Remote
- Battery/Battery
- Included with Harmony VFXV Burners only

### IP

- Battery Remote Control, Thermostat
- Thermostat Remote
- Battery/110V (Battery Backup available)
- Included with Harmony IP VFNI and VFXI Burners, Slope Glaze VFSE, Loft VFIL and VFL20IN

### Multi-Function

- Battery Remote Control, Thermostat
- Thermostat Remote
- Battery/110V (with Battery Backup for Burner)
- Included with Premium and Luxury RF Fireplaces only
- Controls Direct Ignition, Flame Height, Blower Speed (and Dimmer Light on DVX models)

• (Slope Glaze VFSV Burners include a Variable Flame remote that looks similar to FRBC but with buttons marked "HI/ON" and "LO/OFF")

### Decorative Fronts and Outer Frames

Decorative accessories let you tailor your firebox or fireplace to your décor. Choose louvers in four patterns – slat, arched, leaf, and mission – finished in matte black, hammered pewter, or brushed stainless steel.

Matching door sets and frames complete the transformation from an attractive fireplace to a stunning focal point.

Our metal three-piece outer frames let you transition from your fireplace to any adjoining surface – wooden mantel, tile, stone, or any non-combustible material. Choose from steel frames – with traditional crisp lines – or our extruded aluminum frames – with a profile that combines gentle concaves with flat surfaces.

Our bottom trim completes the fourth side of the color frame.

**Accessory availability varies by fireplace.**

### Extruded Aluminum Frames

*Matte Black*  
(Shown on Cherry Mantel)

*Hammered Pewter*  
(Shown on Oak Mantel)

*Stainless Steel*  
(Shown on White Mantel)

### Fireplace Liners

All brick liners are designed to ensure rich detail and lasting beauty. All liners are made from ceramic fiber unless otherwise noted. **Liner availability varies by fireplace.**

- *Stacked Stone liners have stones of varying depth and color for a rustic cabin look.*
- *Aged Brick liners have brown bricks with charcoal mortar in running bond courses, plus smoked accents.*
- *Traditional liners have burnt umber bricks with light gray mortar, in running bond courses.*
- *Herringbone liners have burnt umber bricks in a herringbone pattern with light mortar.*
- *Banded Brick liners have dark “creamed-coffee” bricks with charcoal mortar in running bond courses, plus an accent band of diagonal brick.*

*Herringbone  
Brick Liner*

*Aged  
Brick Liner*

*Banded  
Brick Liner*

*Traditional  
Brick Liner*

*Stacked  
Limestone Liner*

*Black Reflective

*Sangria Luster Droplets*

*Glacier Ice Droplets*

*Blue Clear Crushed*

*Clear Frost Crushed*

*Black Polished  
Crushed*

*Medium Rocks*

*Accent Pebbles*

## Outdoor Fireplaces, Fireboxes, and Burners

A fireplace extends the season for the outdoor living space you worked so hard to create. Our Carol Rose Coastal Collection includes outdoor fireplace systems in linear or conventional models, fireboxes, traditional log sets and contemporary burners.

All our outdoor hearth products feature stainless steel for all exterior surfaces to provide lasting beauty.

Our intermittent pilot (IP) systems fit your green lifestyle by eliminating the standing pilot light. Our Millivolt systems include a standing pilot – to light easily and operate without electric power – ideal for outdoor installations where power is not readily available. IP systems include an on/off, hi/lo remote control. Millivolt systems will operate with an optional remote or wall switch. Linear 48-inch and 60-inch outdoor fireplaces include pushbutton ignition and manual 3-position valve.

These products are designed for outdoor installation only. For installation on a covered deck or porch, at least two sides of the enclosure must remain open at all times.

## Fireplaces & Fireboxes

Choose a traditional fireplace and a refractory log set or a contemporary fireplace with elegant linear burner. Both fireplaces are available in 36-inch (36,000 Btu) and 42-inch (40,000 Btu) – perfectly sized for your outdoor living space.

With concealed controls, your outdoor fireplace presents a clean, sleek look.

Our fireboxes (36 or 42-inch) share the same stainless steel construction but allow you to install any outdoor gas burner or log set.

The optional folding glass doors help keep out leaves and debris but open quickly when you're ready to light a fire. Or use the optional stainless steel cover to completely enclose your fireplace when not in use.

The available drain tray installs beneath the unit to keep water from pooling.

*Carol Rose Coastal Collection 48-inch Contemporary Linear Outdoor See-Through Fireplace in a custom surround*

*Carol Rose Coastal Collection 36-inch Traditional Outdoor Fireplace with optional Folding Glass Doors*

*Carol Rose Coastal Collection 42-inch Contemporary Outdoor Fireplace with optional Stainless Steel Weather Door*

*These special outdoor products are named for customer service manager Carol Rose Burtz, who has been with Empire for more than 55 years. As the first time we have named a product for an employee, this represents an appropriate honor recognizing Carol's exceptional history with the company.*

## Outdoor Harmony Burners and Wildwood Log Sets

The Carol Rose Coastal Collection includes the Wildwood Refractory Log Set designed specifically for outdoor use with our Harmony Stainless Steel Burner. The 24-inch burner set is rated at 50,000 Btu, generating plenty of flames to complement the massive concrete log set, and the 30-inch is also rated at 50,000 Btu.

Available in IP or Millivolt technology, these special burners feature internal baffles to induce movement in the flames for an exceptionally natural looking fire. Choose LP or natural gas.

These burners are designed for installation in an outdoor fireplace or firebox only.

## Contemporary Burners

Our contemporary burner completes your modern outdoor décor. With stainless steel top and linear burner, these systems deliver 36,000 Btu in 24-inch models and 40,000 Btu in 30-inch – plenty of fire to warm your guests and light up your outdoor event.

Choose LP or natural gas and IP or Millivolt technology – for installation in an outdoor fireplace or firebox only.

*Carol Rose Coastal Collection Ventless Harmony Outdoor Burner with 24-inch Wildwood Log Set*

*Carol Rose Coastal Collection 30-inch Ventless Contemporary Outdoor Burner*
