

Renegade 35 Fireplace
Insert with Black Glass
Liner, Driftwood Log Set,
Forged Iron Front,
Rectangle Inset, and
Matte Black Surround

TRUFLAME TECHNOLOGY

Most Realistic Flames

Complementing the logs and giant ember bed, TruFlame Technology includes two burners for independent front/rear burner control of the ultra-realistic flames. With both burners in your control, you can call for a roaring fire, a low glow, or anywhere in between.

The multifunction remote operates as a conventional thermostat, a Smart Thermostat which modulates flame height as the room reaches the desired temperature, or as a manual control. The remote also operates the included accent light and blower.

STANDARD FEATURES

Your Renegade Direct-Vent Insert includes an accent light and blower. Customize your insert further by choosing a liner and log set (both required), and finish it with a required surround and optional front.

- Accent Light
- Blower

Textured Black)

A modern living room interior. In the foreground, a cowhide rug is partially visible. Behind it, a patterned throw pillow rests on a dark surface. A tall, slender floor lamp with a glass globe and a warm-toned bulb stands next to a large window. The window looks out onto a residential neighborhood with houses and trees. To the right, a stone fireplace is partially visible.

RENEGADE CLEAN-FACE Direct-Vent Fireplace Inserts

Available in 30-inch and 35-inch models, Renegade Direct-Vent Inserts turn your wood-burning fireplace into an attractive and efficient centerpiece. The TruFlame system combines technology with aesthetics to create truly realistic flames and a glowing ember bed, reminiscent of a wood fire.

Beneath the logs, the massive field of glowing embers assures everyone that this fireplace has been warming your home all day. Concealed beneath the logs and embers, the two burners let you vary the flame and the heat output to create the perfect mood.
