

Renegade 50 Clean-Face Direct-Vent
FIREPLACE WITH TRUFLAME TECHNOLOGY

Renegade 50 Clean-Face DIRECT-VENT FIREPLACE

The Renegade 50 features a dual burner that creates a tall lively fire, accented with a massive Forest Timber log set and large glowing ember bed. The huge ceramic glass front allows heat to easily transfer into your living space and provides a clear view of the fire.

While the Renegade is a visually stunning fireplace, what you can't see makes it even more impressive. TruFlame Technology – featuring a ceramic catalyst – minimizes emissions while maximizing heat efficiency. This results in the most realistic flames, reminiscent of a wood burning fire.

An external air control eliminates the guesswork during setup and allows your dealer to fine tune the flame, ensuring a beautiful fire.
