Renegade 40 See-Through Clean-Face Direct-Vent Fireplace WITH TRUFLAME TECHNOLOGY

RENEGADE 40 SEE-THROUGH Direct-Vent Fireplace

The 40-inch Renegade Direct-Vent See-Through features a triple burner that creates a tall lively fire, accented with the Traditional Charred Logs and large glowing ember beds. This unit can be enjoyed in two rooms of any home. By adding the stainless steel outdoor kit, the unit can be installed on an exterior wall.

While the Renegade is a visually stunning fireplace, what you can't see makes it even more impressive. TruFlame Technology – featuring a ceramic catalyst – minimizes emissions while maximizing heat efficiency. This results in the most realistic flames, reminiscent of a wood burning fire.

External air shutter and damper controls allow your dealer to fine tune the flame, ensuring a beautiful fire.
